Reap the Benefits of

HOSTED EXCHANGE SERVICES WITH OUR PREMIER SUPPORT

85under's hosted exchange solution is easy to use and maintain. This solution gives your employees access to their business email, calendar, and contacts from any internet-connected computer or mobile device.

Benefits

- Productivity
- Easy Deployment
- Real-time Access
- Flexible
- Customized Applications
- Remain in Control
- Managed

Productivity

Hosted Exchange facilitates collaboration by allowing team members to share important information effortlessly.

Easy Deployment

We'll have you up and running in no time with fast implementation and migration services.

Real-time Access

Enjoy the convenience of having all your data at your fingertips wherever you're online.

Flexible

Let us know your custom needs as we install, configure and manage your critical email infrastructure.

Customized Applications

Have a customized application that won't work with Office 365, 85under can help. We'll deploy a standalone version of Exchange for your organization, allowing you to reap the benefits of Exchange in the cloud.

Remain in Control

Tailor a solution that fits your exact needs. We'll help design and implement a solution to your specifications.

Managed

Let 85under manage your email infrastructure so you can focus on running your business. We'll ensure your email flows 24/7/365.

About Us

What makes us Unique	
Underground	- Our datacenter is 85 feet underground
Bandwidth	- Gigabit Speed Burstable
Selection	- Custom Server Components - Select Cores, RAM and Storage individually. Buy only what you need
Simplicity	- Microsoft Licensing Month to Month On Demand
Accommodating	- Host your own hardware (or lease dedicated) on the same network as your cloud server (colocation)
Managed	- pulse85 offers a persistent team assigned and dedicated to you (get to know them by name!)

Enterprise Hardware

Technical Specifications	
Cisco Server Hardware	Cisco Firewall and Intrusion Prevention
IBM Enterprise-class SAN infrastructure	Create Server Template Images
Cisco Datacenter Switching Infrastructure	Microsoft and Linux Operating Systems
Data Center Power - Failover N+1	Add SQL Server 2008 R2 or 2012 DB
Multi Homed Fiber Internet - Burstable to Gbit	Managed Server option with Pulse85
